A Data Scientist with proven ability to succeed as a part of a team or individually, driven to provide actionable results.

Analytical Programs: SQL, R, Python, Tableau, Git, Spark, Hive, Hadoop, SQL

Real world experience with: Regression, Classification, Cluster Analysis, Segmentation, Time Series, Forecasting, Recommender systems, Neural Network models, Text Analysis

PROFESSIONAL EXPERIENCE

Analytics Vidhya, Gurgaon, India

Aug, 2020-Present

Data Scientist, Intern

Gained exposure to work upon enterprise level data performing extensive EDA, creating documentation and building presentable dashboards using Tableau.

- Identified customers with seasonal usage patterns leveraging time series analysis. The results helped in building campaigns to better nurture the customer relationships with this information.
- Identified the price variation of the houses based on different features. Build a price prediction model for a real estate agency.
- Built a functional model to predict products for cross-selling for the current user-base.
- Used time-series model to predict future Course sales using an online Edu-Tech platform dataset.
- Delivered a behavioral segmentation of the customer base using cluster analysis. This information drove campaign creation and execution.

Wipro, Noida, India

Nov, 2015 – 2020

Analyst – Cyber-Security Analytics

2018 – 2020

Promoted to a team delivering accountable insights from data to clients and leadership.

- Worked with Cross-platform teams to automate handling procedure of log level data using Python.
- Used Tableau to present insights in front of leadership.
- Perform quantitative analysis of different processes using Python and to provide insights from data to automate them. Experience in extracting, manipulating, cleaning data from various sources like Excel, flat files

Software Engineer

2017 – 2018

Worked as part of a global team, managing several client projects.

- Co-developed SAML 2.0 based SSO setup for more efficient and secure login experience.
- Created and led training on key IAM techniques, documentation and client engagement.

IT Specialist

2015 – 2017

- Managed cybersecurity IAM profiles for clients. Worked on developing internal solution to automate the workflow for audits and report generation.

EDUCATION

Uttarakhand Technical University, India

B.Tech, Electronics and Comm. Engineering. 2015
